

Watershed Approach

Status:

In Progress

IWR Contact:

Robert Brumbaugh (Robert.W.Brumbaugh@usace.army.mil)

Purpose:

Provide support to the Regulatory HQ effort to implement a watershed approach to permit decisions and compensatory mitigation, including interagency collaboration. IWR is also interacting with Regulatory HQ in developing a decision support paradigm.

Objective:

to implement a watershed approach to permit decisions and compensatory mitigation, including interagency collaboration. IWR is also interacting with Regulatory HQ in developing a decision support paradigm.

Benefits:

Improved compensatory mitigation that reflects needs of the watershed and the regulated community
